

Invasive Weed Coordination Form

Illinois Tollway / Northern IL Invasive Plant Partnership

This form is used to report populations of invasive plants along and within the Illinois Tollway right-of-way. The information provided will be used to assist the Tollway and the Northern Illinois Invasive Plant Partnership (NIIPP) members in the coordination, management and control of invasive species in Northern Illinois.

Please return completed form to jschneberg@getipass.com for review and consideration.

Contact Information:

(Provide: Name, Date, Agency/Organization, Address, Phone Numbers, Email Address)

Location of invasive plant area(s) identified:

(Attach location map using Google Earth to pinpoint areas. Provide description with size and location of each area along with any other unique features. An IL Tollway Virtual Map is available at www.illinoistollway.com to obtain further reference information.)

Invasive Plant Type(s) Identified:

(Attach photos if available. Provide common and scientific plant name(s) for each location identified. Note any threatened or endangered species)

Other Comments or Information:

(Provide: information about the current control strategies, methods and schedule if location is at a shared boundary. Include any other pertinent information)
